## Three points to work on today

**1) Write down bullet points or a one sheet free write on how to get people thinking about your topic.**

**2) Write down a story about your own personal reasons or experiences about your topic. We'll build on it with humor, tears, and/or other emotions. Get to people's hearts or logic in this part.**

**3) Write down what you want/dare them to do about it. Start with perhaps what's being done or that it's simply time to wake up and how we can make a small difference in our own community...right here at home. You have to start somewhere.**
